RE: Technology Transfer Intern,

Dear Ms. Tina,

Throughout my career, I have contributed to impacting business outcomes through effective organization, prioritization, and execution of key projects. My skills and qualifications are an ideal match to the Technology Transfer Intern requirements and will bring immediate value to the University of Houston's goals. Previously, in my STUDENT TECHNOLOGY SUPPORT ANALYST role, I exercised a calculated and methodical approach to problem-solving. I am independently motivated, yet I appreciate team efforts and collaborate productively within groups. Additionally, I am knowledgeable in Technology and Software Development with proficiency in Cybersecurity.

Because my professional goals align with the University of Houston's mission and values, this opportunity is especially exciting. I believe my communication, collaboration, and problem-solving abilities will support and drive your continued organizational success.

My previous Industry experience working as Network & Security Engineer for Barracuda Networks gave me Practical experience. I have an excellent track record of Implementing and Troubleshooting issues of many Security Devices like Web application Firewalls & Load Balancers. My expertise in Information Security makes me a great addition to your team.

Here are some of my professional highlights:

- Knowledge of deploying and troubleshooting Barracuda products on Virtual, Cloud & Physical appliances. I am capable of deploying Barracuda Products in reverse proxy, in Two-Arm Proxy, or in One-Arm Proxy configuration.
- Experience in handling cases or tickets & phone calls created by customers of barracuda. Where I make use of
- Experience in troubleshooting issues by packet capture analysis (WIRESHARK, TCPDUMP & FIDDLER).
- Experience in application layer protocols like HTTP, HTTPS, DNS, etc.
- Experience in managing the migration of large-scale enterprise networks.
- Providing global support [AMERICAS, EMEA, APAC].
- Experience in a reverse proxy configuration, SSL offloading, Cipher suites, TLS/SSL protocols, Web attacks, etc.,
- Experience with cloud services (AWS, AZURE).

You may notice a gap in my employment while reviewing my resume. During this period, I elected to take a break from the workforce in order to go back for a carrier change in Cybersecurity. The time that I was able to commit to my education has been invaluable to my professional growth, and I am eager to re-enter the professional sphere and apply my newfound qualifications and knowledge to the job. To demonstrate the scope of my career history and professional competencies, please take a moment to review my attached resume. I appreciate your evaluation of my credentials and subsequent response.

Sincerely,

SAI VISHAL MADDI.
